

crucial detail

crucial detail

Crucial Detail is an award-winning design studio founded by Martin Kastner. For more than a decade, Crucial Detail has explored the synergy of food and design, working at the forefront of fine dining in collaborations with the world's best chefs.

In addition to being named by The Future Laboratory as one of the world's 100 most influential designers, Kastner and Crucial Detail received a Global Innovation Award for Best Product Design for the Porthole, and Book Design of the Year Award for the Alinea book. Specialized cooking tools and platter presentations designed by Crucial Detail were instrumental in Team USA's historic silver and gold wins at the world's top culinary competition, Bocuse d'Or in 2015 and 2017.

Select Crucial Detail collaborations shown in this catalog have been adapted for limited scale production and are now available to the wider hospitality community.
