IRODORI
CHOPSTICKS PICTURE BOOK

vol.12

For us, envisioning the “future of chopsticks” meant going back to hone our skills as a traditional lacquered chopstick manufacturer. But more than that, we tried to focus on the people who use what we make.

Future of the chopsticks
Beauty and Function.

● Products Description

- Square tip** The mark above indicates that the chopsticks have square shaped tip, which enables to pick food easily.
- Fine tip** The mark above indicates that the chopsticks have fine tip, which is useful when eating fish etc.
- Anti-slip tip** The mark above indicates that the chopsticks have anti-slip tip. There are two kinds of anti slip tip; Tip with rough surface which help to hold noodle and any other slippery foods. Tip with several grooves which also help to hold food.

若狭塗
古代kodai wakasa
nuri

Kodai Wakasa Nuri lacquering uses a technique called Togidashi, which comes from the Wakasa region of Fukui Prefecture. In it, lacquer and shells are applied in several layers and then polished to produce not only a beautiful pattern, but a high-quality, long-lasting finish.

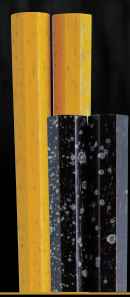

螺鈿

raden

Raden is one of the decorative techniques used in traditional crafts and woodwork using shell pieces. The shell parts glow beautifully in blue or white due to the reflection of light. The delicate and unique beauty has attracted a lot of people since long ago.

山中塗

yamanaka
nuri

Yamanaka Nuri lacquerware is a particular specialty of the Yamanaka area in Ishikawa prefecture. The area is famous for the traditional Hikimono wood turning technique using a spinning lathe. The lacquerware features Shudame Nuri lacquering method that was developed from Kyo Nuri lacquering method in the Edo period (16th C).

MR
漆

MR urushi

MR Urushi lacquer is created by refining a natural lacquer drop by drop into a particle level. By repeatedly applying the lacquer to an item and drying it naturally, the item becomes more resistant to ultraviolet light and scratches compared to other lacquerware.

加賀
蒔絵

kaga makie

Kaga Makie lacquerware is produced in the Kaga area of Ishikawa prefecture. The traditional technique for gold and silver lacquering, which originated here, is finely adopted. MAEDA Toshitsune, the third lord of the Kaga feudal clan, invited IGARASHI Doho from Kyoto as a teacher to develop the craftsmanship in the early Edo Period.

金沢箔

kanazawa
haku

The Kanazawa Haku gold leaf has 400 years of history. The excellent quality and craftsmanship in handmaking a gold leaf has been passed down throughout history, giving off a brilliance that has attracted many people.

江戸
唐木

edo karaki

Edo Karaki chopsticks, or Edo Karakibashi, was originated in Tokyo (once called Edo), a place known for handcrafting wooden chopsticks. The Edo Karaki chopsticks are made from hard and durable wood from the tropics, which was introduced through China during the Tang Dynasty.

蜜
蝋

mitsurou

A natural wax that honeybees secrete to build their hives is called beeswax or Mitsurou. Due to its excellent waterproof and antiseptic effects, it is widely used to polish and waterproof wooden products.

Antibacterial

抗菌箸

chopsticks

Chopsticks with Antibacterial to enhance safety

Antibacterial material,"Zeomic" is the first silver-base inorganic antimicrobial agent commercialized in the world. Compared to organic antimicrobial agents,Zeomic boasts an extremely safety,sustainability,heat resistance. It is highly regarded not only in Japan,but also in the world.

Effective for various types of bacteria

A silver-base inorganic antimicrobial agent

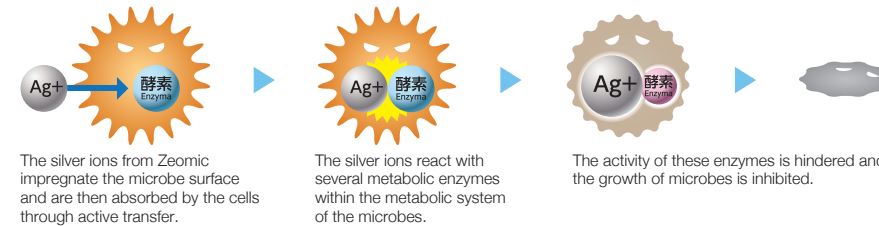

ゼオミック Zeomic

Zeolite enables silver ion to stabilize its ionic state

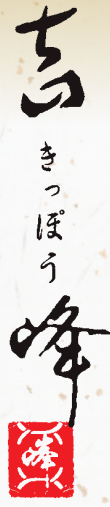

The stabilization of ionic state activate its effectiveness of antibiotic action

The Process of how Zeomic restrain growth of bacteria

Highest level of safety

In recent years,Zeomic's functions have expanded beyond antimicrobial to also include odor-elimination,water processing application and so on,steadily establishing a status as a global ""multifunctional additive,"" with rich safety data and a multitude of government licenses.

Kippo

Artistic chopsticks with beautiful design on the handle

The designs are inspired from Japanese traditional motif of good fortune and auspicious omen patterns.

One of the world's three most precious kinds of wood! Also extremely strong.

Reusable and environmentally friendly.

Reusable Chopsticks

Square tip Dish washer safe Micro wave safe

Eco friendly chopsticks conserve resources!

Disposal chopsticks that are thrown away once they are used become trash. In order to reduce this waste, it is important to use chopsticks which can be used repeatedly. This is the first step in addressing environmental issues. Reusable chopsticks are eco friendly and can be used repeatedly in the home or restaurant, and have durability for both type of dishwasher; domestic use and professional(restaurant) use.

point 1 The chopsticks tips are square, so it's easy to pick.

The chopsticks tips are square, so they can be used for any cuisine.

point 2 Repeatable durability.

Machine washable, heat resistance up to 220°C, microwave safe. Perfect for repeated use in the restaurants or hotels!

point 3 Eco friendly with reduced costs and waste.

Repeated use saves costs! No disposable chopsticks waste! Balancing environment and economy.
