Chef

This collection consists of a series of pans made of 3-ply stainless steel: a unique assembly of two layers of stainless steel with a layer of aluminum in between. These pans heat up quickly and provide even heat distribution, perfect for searing, for example, a juicy steak at a high temperature, preserving flavor. The pans are oven-safe*, so you can go from the stove to the oven with ease.

What makes our Chef Collection truly special is that each piece is proudly made in Europe. This guarantees unparalleled quality and craftsmanship.

NEW!

*Please note that the pans are not suitable for microwave use.

Santo

The Santo serving boards are made from sustainable acacia wood. It is a hard and rigid wood. The board itself is already a pleasure for the eye, but they are even more loved when you use them to serve appetizers. This series of Wood&Food has a trendy and ethnic look. The wooden fibers create a contrast with the soft, round and oval shape of the product. The grain of the wood ensures that each piece is unique.
