Our International Export Network

Our company has been actively operating in international markets for many years, driven by a quality-focused production approach and a strong operational infrastructure. Through our export activities to more than 40 countries, we deliver our products in line with global standards while aiming to build reliable, sustainable, and long-term partnerships

PRODUCT FEATURES

Lifetime Edge Chip Resistance

Selected products are designed for intensive use, offering high resistance to edge chipping and ensuring elevated product reliability under long-term daily and heavy-use conditions.

Translucency

Its transparent structure clearly reveals the product's form and details, delivering a light, elegant, and modern aesthetic. This transparency interacts with light to enhance visual depth and create a refined presentation experience

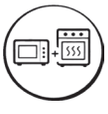

Dishwasher Safe

Its dishwasher-safe structure simplifies daily use. The durable porcelain surface supports long-lasting performance while maintaining its refined appearance through repeated wash cycles.

Glaze Damage Resistance

Its durable porcelain structure provides high resistance to surface scratches, damage, and glaze wear, maintaining the product's aesthetic integrity, visual quality, and performance over time.

Microwave & Oven Safe

Thanks to its high heat-resistant structure, it is suitable for safe use in both microwave and oven, offering reliable and consistent performance under various heating conditions

Hand Painted

Hand-painting adds a unique character to each piece, highlighting fine craftsmanship and refined aesthetic details in the designs. This process gives the products an artistic value and a distinctive appearance.

Thermal Shock Resistance

Its thermal shock–resistant structure ensures reliable use under varying temperature conditions. This ability to adapt to both hot and cold environments enhances user comfort and elevates the perception of durability.

Stackable

Its stackable design allows products to be placed safely and neatly on top of one another, maximizing storage efficiency. This feature supports organization while offering convenience in professional and high-use environments.

Reactive Glaze

Reactive glaze application creates unique patterns and tonal variations on each piece, resulting in an original and distinctive appearance. These natural variations add aesthetic depth and a unique identity to the products.

Lifetime Color Resistance

It ensures that product colors remain permanent over time without fading or changing. As a result, the aesthetic appearance is preserved long term and the perception of quality remains consistent.

Our organic porcelain collections, designed for global markets, undergo production processes in line with international quality standards while preserving the artistic value of handcrafted production. This approach delivers a balanced performance that meets both aesthetic expectations and professional usage requirements. The natural variations inherent in handmade production add warmth, originality, and a refined character to each piece, elevating every presentation

BY BONE

Our new factory has been realized as a modern production hub that brings together our manufacturing strength, design vision, and commitment to quality under one roof. Established in the Emet district of Kütahya, By Bone was founded with the aim of combining its deep-rooted expertise in porcelain production with a contemporary manufacturing approach. Our new factory represents one of By Bone's strongest steps toward the future.

With 133,000 m^2 of open space and 39,500 m^2 of enclosed production area, the facility operates with a high-capacity, fully integrated industrial infrastructure. Its expansive layout enables efficient management of production, storage, and logistics processes, while the modern facility design ensures operational continuity and the sustainable application of quality standards. This large-scale structure has been specifically designed to reliably meet the high-volume and uninterrupted supply demands of the HoReCa sector.

Equipped with advanced technology production lines, environmentally responsible systems, and craftsmanship-driven details, By Bone's new factory expands not only production capacity but also its commitment to sustainability, speed, and excellence. Each piece produced here achieves refined balance of aesthetics, durability, and functionality.

As By Bone, we operate with a detail-oriented approach at every stage—from raw materials to the final product—aiming to be a reliable business partner in both domestic and international markets. With a philosophy centered on customer satisfaction, quality, and continuous improvement, we continue our journey toward becoming a respected and sustainable brand in the global porcelain industry.

With our commitment to excellence in production and a strong sense of corporate responsibility, we aim to create lasting value for our industry.

To deliver high-quality porcelain solutions suitable for professional use by combining craftsmanship, advanced production technologies, and sustainable practices. By prioritizing quality, consistency, and functionality at every stage of production, we develop reliable solutions tailored to the operational needs of the HoReCa sector. We operate with a production approach that understands customer expectations and creates long-term value.

To become a globally recognized porcelain brand, setting industry benchmarks through quality, innovation, and operational excellence. By embracing continuous improvement in design, production, and process management, we aim to establish standards that differentiate us within the industry. Guided by sustainability and corporate responsibility, we strive to strengthen our position as a brand that creates value for future enerations.

Material

Porcelain bodies designed for professional HoReCa use are developed using high-purity raw materials sourced in accordance with environmental responsibility principles. Material compositions are engineered to deliver mechanical strength, hygiene, and extended service life.

Engineering

The production process is carried out using advanced shaping systems and energy-efficient thermal treatment applications. This engineering-driven approach enhances structural stability while ensuring consistent performance under the demanding conditions of professional kitchen operations.

Continuity

In line with the uninterrupted service requirements of the HoReCa sector, high-quality-standard-driven standardized and traceable production and quality processes ensure consistent quality, operational reliability, and long-term performance across every batch.

Production processes are carried out within an integrated structure based on planned operational management and defined technical criteria. Through process control mechanisms and standardized practices, product performance and quality consistency are ensured at every stage of production.

Each product is shaped by the expertise and meticulous craftsmanship of experienced artisans. Traditional craftsmanship is combined with modern production disciplines to create porcelain pieces with strong form integrity, functionality, and aesthetic balance.

Formulation

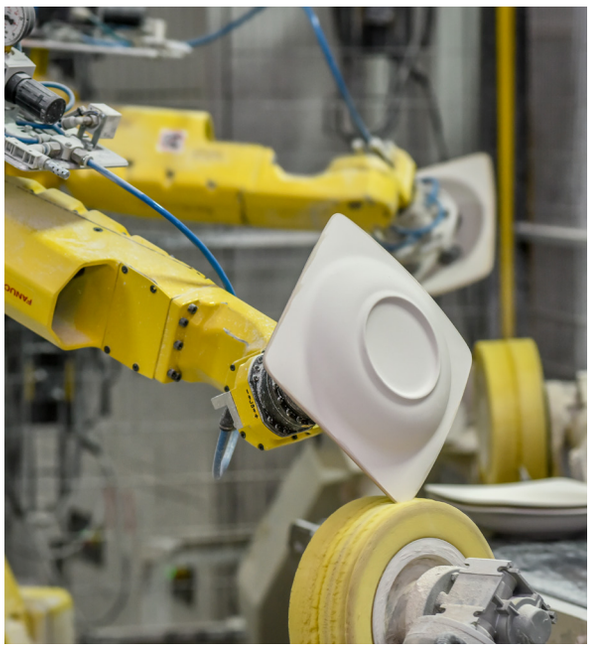

To meet the high-performance demands of the HoReCa sector, raw materials sourced from traceable and responsible suppliers are carefully selected. Product formulations are optimized to ensure durability, hygiene, and long service life, while sustainable production principles focused on resource efficiency and waste reduction are systematically applied.

Processing

Products are formed using high-precision molding systems and automation-supported production lines. Controlled thermal processing enhances the density and structural integrity of the porcelain body, resulting in products that offer superior resistance to intensive use and thermal variations commonly encountered in professional kitchens.

Manufacturing

Manufacturing operations are carried out through carefully planned and systematically managed operational processes, supported by a quality-focused production approach. All stages are controlled based on suitability for professional use and long-term performance criteria.

At the final stage of production, each product undergoes a detailed manual inspection for surface smoothness and aesthetic quality. This process is an integral part of By Bone's quality philosophy.

Through advanced shaping technologies and controlled production processes, porcelain forms are produced with high precision and form stability. Each piece is shaped in accordance with dimensional consistency and surface integrity criteria.

New Collections

Amorf

Inspired by the timeless craftsmanship of handmade production, the Amorf Collection is born not from the repetition of a single form, but from the harmony of pieces that choose to exist independently.

Clay

A modern interpretation of natural tones. Its fluid form and subtle surface transitions transform simplicity into a confident design language.

Moss

Inspired by the naturally occurring tones of nature, the Moss Collection progresses with soft transitions that carry the traces of natural processes.

Notte

Notte is defined by its deep, night-inspired tones, creating a bold and atmospheric presence on modern tables. Its organic form and subtle textural movement give presentations a striking and refined identity.

Colmena

Colmena Collection reflects a contemporary aesthetic through its warm earthy tones and organic form. Its natural texture and subtle surface transitions add a sophisticated and timeless character to presentations.

Viola

The Viola Collection expresses a refined sense of luxury through the perfect balance of color and form. The meeting of deep purple tones with a matte surface adds depth to presentations.

Plise Gleam

The minimal form gains a more defined expression through its subtle framing. The rhythm of the relief surface adds depth and character to the clean structure. Balanced, modern, and distinguished by its details.

Plise

Plise reinterprets minimal form through distinctive relief details. Its subtle textural rhythm transforms simplicity into a strong, contemporary design expression. A design that makes its presence felt without the need for excess.

New Collections

Ephyra

Drawing from the natural texture of earth and the fluid power of water, the Ephyra Collection carries nature's timeless balance into presentations.

Oliva

Inspired by the timeless olive trees of the Mediterranean, the Oliva Collection offers naturalness and elegance. With its soft tones, organic texture, and delicate botanical motifs, it brings a warm and sophisticated character to professional presentations.

Kario

Inspired by historical decorative designs, the Kario Collection brings the aesthetics of the past to the table with delicate blue motifs and warm edge transitions, uniting chefs' presentations with flawless elegance.

Glacier

Inspired by the pure power of glaciers, the Glacier collection adds a fresh and modern elegance to presentations with its clear white surface and delicate blue textures spreading toward the edges.

Luzz

Inspired by the reflection of light on porcelain, the Luzz Collection offers an elegant sense of brightness to presentations with its softly transitioning texture and simple form. Its silky surface brings presentations to the forefront.

Vision

Vision collection brings together the aesthetic balance and elegance required by fine dining presentations with porcelain. The surfaces, finished with a black matte reactive glaze, create natural and unique tonal transitions on each piece, adding depth to presentations.

Heritage

Inspired by the elegant textures of the past, the Heritage Collection brings cultural heritage together with modern presentations. With its timeless design, it is a distinguished collection that allows chefs to interpret modern tables.

Rumi

Designed with inspiration from the ancient motifs of Anatolia, the Rumi Collection brings the aesthetics of the past to today's tables; while the delicate motifs add depth and rhythm to presentations, its simplicity highlights chefs' creations with perfect balance.

Amorf

Inspired by the timeless craftsmanship of handmade production, the Amorf Collection is born not from the repetition of a single form, but from the harmony of pieces that choose to exist independently. With this approach, it is a timeless collection in which each piece is valuable on its own and, when brought together, presents a strong premium presence.

Vision

Vision collection brings together the aesthetic balance and elegance required by fine dining presentations with porcelain. The black matte reactive glaze creates natural, unique tonal transitions that add depth, while its minimal and strong form highlights chefs' creative plating in harmony with modern gastronomy.

Ephyra

Drawing from the natural texture of earth and the fluid power of water, the Ephyra Collection carries nature's timeless balance into presentations. While its softly transitioning texture brings a calm depth to tables, its natural tones highlight the presentations.

Luna

Reflecting the richness and splendour in presentations that bring together the harmony of the moon and the night, the design captures the enormous flavours that equip the original stylish tables with its flashy presentation.

Wave

The Wave collection, inspired by the graceful and rhythmic condition of nature, gives tranquilly and energy to your tables, much like the trace left by a wave as it hits the shore. This distinctive design adds a natural appearance and vitality to your presentations, making them more remarkable.

Armonia

In the design where balance is described, passionate
connotations and eye-catching details are touched upon.
In the collection where illusion is included,
a design appealing to every taste was created.

Kolezyum

Emphasising Italian culture, the design was designed inspired by the mystical touches of the Colosseum. It is inspired by the mysterious details of the structure reflecting the history of the Colosseum.
