HIGH-END PLATES

Raynaud rediscovers the luxury of time: the time it takes to craft colourful, imaginative porcelain and the time it takes to set a table conducive to sharing and pleasure.

Raynaud offers the passion of an art of living freed from all conformism, in which elegance and generosity are the only criteria.

Thanks to a two-century expertise, the Maison Coquet's tableware made in Limoges, France, glows on the most innovative and luxurious tables all over the world.

Jaune de Chrome is worldwide known for its absolute mastery of enamel. The association of enamel with metal components through an artisanal process brings to life outstanding pieces.

The porcelain art from Studio Pieter Stockmans results from a combination of traditional craft production and a contemporary, experimental approach.

Studio Mattes manufactures handcrafted and durable stoneware crockery taking inspiration from nature's elements for top chefs.

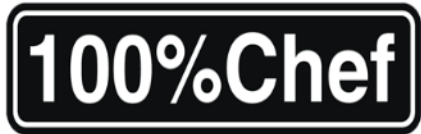

Unique craftsmanship and exclusive manufacturer's porcelain - this is what FÜRSTENBERG has stood for since 1747. This traditional company is setting new standards in porcelain manufacture with its premium collections featuring upmarket tableware design of the highest quality.

Jacques Pergay boasts of their craftsmanship with a pursue of beauty and poetic porcelain - highlighting their skills and passion for the craft. Every product has a touch of humanity from start to finish, emphasizing the finesse, delicacy and beauty of the product.

Using the most advanced technology, uncompromised quality and functional design, 100%Chef is synonymous with innovation, quality and value.

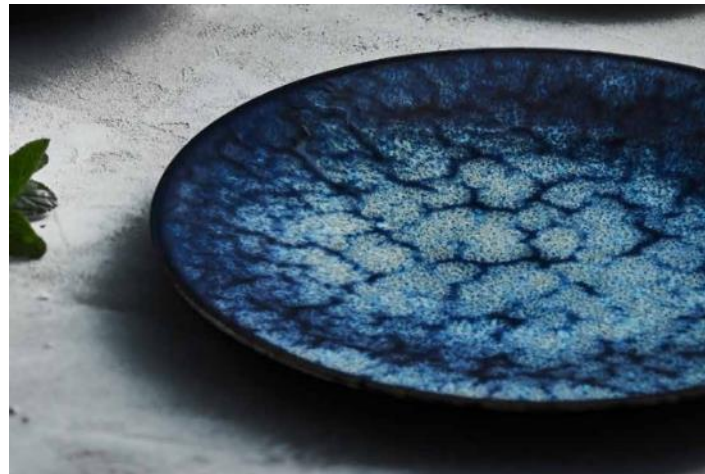

Y Luesma & Vega

Luesma & Vega studio is specialized in designing tableware for avant-garde gastronomy. The production is carried out using the latest glass technologies. Luesma & Vega Studio worked with the restaurants El Bulli, El Celler de Can Roca and famous Chefs like Albert Adrià, Paco Pérez and many more...

Montgolfier is a French manufacturer offering sophisticated stoneware plates varnished with stunning glazing on contemporary shapes.

Dibbern's Fine Bone China boasts its quality, durability and environmentally friendly production. Keeping up with contemporary needs while maintaining traditional craftsmanship brings the best of both worlds.

Silodesign is a creative and innovative tableware manufacturer based in France. The brand is at the origin of the double layers glasses which are now available in many shapes to suit every Chef's need.

Les Guimards restyles classical potteries. The familial workshop shapes and paints clay with passion. By merging design, natural materials and tradition, they create innovative and elegant tables.

Artilugis

Artilugis produces exclusive ceramic pieces using the latest digital designing techniques to enhance the gastronomic experience. Their pieces reflect timeless elegance with contemporary appeal.

Each Jars piece is meticulously handcrafted in its workshop, combining technical mastery with artistic sensitivity. Specializing in stoneware and unique glaze finishes, Jars creates beautiful, durable, and functional objects distinguished by their texture, weight, and feel.

All pieces are designed and manufactured in an artisanal way, combining various materials and techniques with an only goal: creating a support/object out of the established conventionalities of how tableware has to be. Materials include iron, stainless steel, glass, wood, stone and ceramics.

AFFORDABLE PLATES

By Bone is a premium Turkish manufacturer that creates highly durable, organically designed porcelain and ceramic tableware specifically engineered for the professional hospitality and restaurant industry.
